Services Offered

Azco offers several levels of service to meet your specific needs. Everything from full coverage on-site service agreements to paid day service.

Premier Service Agreements

A premier Service Agreement Covers everything for your instrument to keep it performing at optimal performance including, a scheduled preventative maintenance call, 24 hour per day telephone support, priority call scheduling should anything fail, all parts, travel, access to the Azco exchange program, application support, everything in one package.

Basic On-Site Agreements

A Basic Service Agreement Includes everything provided in the Premier Service Agreement for your instrument to keep it performing at optimal performance except the annual preventative maintenance call.

Mail-In Agreements

These agreements are designed for PCR and other smaller instruments. Should your instrument fail, you simply box it and mail it to our warehouse where our technician will refurbish it to be like new.

Paid Day Service

We are always on-call to meet your needs. You can count on us when your instrument fails.

Laser Exchange

Lasers fail, so we've designed a package that includes a new laser installed in your instrument at reasonable prices.

Training

For the do-it-yourselfer, we can provide training so that you can provide your own service.

Custom Plans to Meet your Specific Needs.

Let Azco customize a plan to meet your needs. Call us for more information

Azco Services provide you with "Peace of Mind" knowing your instrument is protected against failure and ensure you maximum up-time.

Call Azco for all of your service needs. Our offerings range from Premier Service Agreements, to refurbishing, to paid-day service, to training so that you can service your own instruments. Our number is 858-259-9528.
